# KEMA JAGADEESH

.NET Developer | 3.7+ Years Experience

Phone: +91 6302635414 | Email: jagadeeshkema2000@yahoo.com

---

## PROFESSIONAL SUMMARY

Result-driven IT professional with **3.7+ years of experience** in designing, developing, and maintaining web and client-server applications. Skilled in **ASP.NET, C#, ADO.NET, Web API, Entity Framework, SQL Server, HTML, JavaScript, and jQuery**, with hands-on exposure to **AWS cloud services** including **EC2, S3, VPC, IAM, and ELB**.

- Experienced in **n-tier architecture**, server-side programming, stored procedures, custom controls, and user accessibility standards.
- Proficient in building and consuming **Web Services**, implementing **client-side scripting with JavaScript**, and ensuring scalable, secure solutions.
- Familiar with **Agile methodologies and CI/CD pipelines**, contributing to efficient delivery cycles.
- Adaptable to new technologies and environments, with a strong commitment to delivering high-quality solutions aligned with client goals.

---

## TECHNICAL SKILLS

• **Languages**: C#, SQL, TypeScript, HTML, CSS

• **Frameworks**: .NET Core, ASP.NET MVC, .NET Framework

• **Web Services**: REST APIs, Swagger, JSON, XML

• **Databases**: SQL Server, SSMS

• **Testing**: xUnit, MSTest, Unit Testing, TDD

• **Tools**: Git, GitHub, Azure DevOps, Visual Studio, Postman, PowerBI

• **Concepts**: OOP, Clean Code, HLD/LLD, SDLC, Agile/Scrum

• **Support Tools**: ServiceNow, Azure Boards

• **Operating Systems**: Windows, macOS

• **Cloud Platform**: AWS (EC2, S3, VPC, IAM & ELB)

---

## EXPERIENCE

**Software Engineer,** Cognizant Technology Solutions, India **Jul 2023 – Present**

**Client**: **Costco Wholesale Corp**

A global membership-only retail corporation operating major warehouse stores worldwide.

**Project**: Order Management System (OMS)

- Designed and developed backend modules & REST APIs using C#, ASP.NET Core, and SQL Server.
- Improved system performance by 25% through optimization of API logic and SQL queries.
- Implemented workflow automation, order lifecycle features, and microservice integrations.
- Contributed to the first official Sprint Demo demonstrating progress across 15+ microservices.
- Supported CI/CD setup, GCP onboarding, and resolved repository/platform-level issues.
- Collaborated with BAs, QA teams, and architects for requirement clarification and delivery planning.

**Roles & Responsibilities**

- Designed and developed backend modules and **RESTful APIs** using **C#, ASP.NET Core, Web API, SQL Server** for order lifecycle management.
- Implemented features for **order creation, validation, orchestration, workflow automation, and status tracking** across multiple microservices.
- Optimized API logic, caching, and SQL queries, improving OMS performance by **25%**.
- Debugged complex issues across distributed microservices, including GCP repo access issues, CI/CD failures, and platform instability.

- Participated in the first official **Sprint Demo**, contributing to establishing foundations for **Instacart & Groupon end-to-end order flows**.
- Collaborated with BAs, POs, architects, and QA teams to refine requirements, plan sprints, and deliver stable increments.
- Created **HLD/LLD**, coding guidelines, and deployment documents for better team onboarding.
- Supported deployment activities, CI/CD pipelines, repository creation, and environment setup on GCP.
- Ensured high-quality code through TDD using **xUnit / MSTest** and peer code reviews.

**Jr. Software Engineer,** Cognizant Technology Solutions, India **Jun 2022 – Jun 2023**

**Client**: **Yelloh (formerly Schwan's Home Delivery)**

Yelloh.com (formerly Schwans.com) is a multibillion-dollar private company with approximately 12,000 subsidiary employees in the United States. Based out of Minnesota, Schwan's sells fine, branded frozen food through home delivery.

**Project**: ROUTE PLANNING SYSTEM

Here at Yelloh, 12 - member team works on various change requests, development activities across various business units. RPS deals with customer sequencing, orders and Inventory.

**Roles & Responsibilities**

- Primary role is to develop web, batch applications and common components in different modules like **Routing, Orders, Inventory** and implement business needs and provide enhancement support to the existing application repository.
- Involved in analysis, design, and development for variety of change requests using Web API, C#.Net, SQL Server, MSMQ and COM+ applications.
- Issue/Bug analysis and identification of root cause, code fix, testing as part of development, enhancement, and user stories.
- Closely works with IT/Op's and Production to deploy the changes to various production servers.
- Connect with Client Business Analyst define problems, collect data, establish facts, and draw conclusions.

- In addition to development, mentoring incident and problem management teams directly interact with end users and business analysts to understand the issue and resolving it immediately based on the business impacts.

---

## INTERNSHIP EXPERIENCE

**Software Engineer Trainee,** Cognizant Technology Solutions **Dec 2021 – May 2022**

**Role**: **.NET Developer Intern**

- Gained hands-on experience in .NET, SQL, and web technologies during a 6-month internship.
- Developed registration and login web pages using HTML and CSS, enhancing understanding of front-end development.

---

## ACHIEVEMENTS & AWARDS

- Client Appreciation (Costco) for Sprint Demo success and microservice progress.
- Q2 OKR Achievement for contributions toward CI/CD setup and onboarding to GCP.
- ADM Consumers R&R – Incredible Team Award for exceptional delivery and innovation.
- Client Praise (Cygnus/Yelloh) for **seamless application enhancements**.
- Incident Management Excellence for Recognized for **designing and implementing permanent code fixes** that resolved critical issues and improving system reliability.
- Diamond in the Rough Award for mastering workflows quickly and developing solutions to resolve A52 device functionality issues.

---

## EDUCATION

**Bachelor of Engineering – Electronics & Communication Engineering (CGPA 9.1)**

SCSVMV University, Kanchipuram — Apr 2022
